# URBAN POLICY IN URBAN COURTYARD

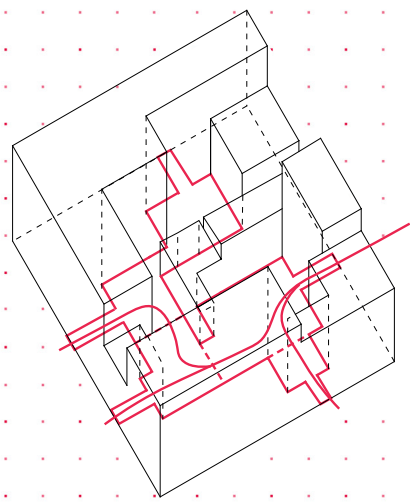

1. STATE OF ART

*Urban courtyards divided by property walls*

2. LINK THE COURTYARDS

Rethink the dividing walls between the courtyards to create possible paths and connections

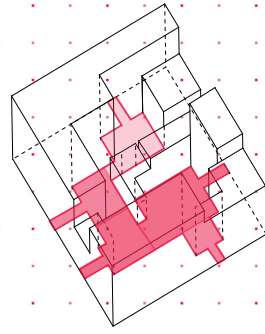

3. DEFINITION OF FLOWS

Connect courtyards through paths generate differnt flows inside the block

4. GRADIENDT OF PUBLICNESS

The pedestrian flows determine gradient of publicness in the system of urban courtyards.
