

Social life in Peschiera

Sc: 1.2500

Café and restaurant

Since Peschiera del Garda is a touristic city, there are many bars and restaurant. Most of them are placed in the historic center which is the destination of tourists, or in the new context which are more close to the historic core. Restaurants and cafe provide an atmosphere for people with various generations to socialize and spend their time with others.

Piazza

Piazza plays a significant role in Italian urban design where people can gather and socialize. However, due to the large number of tourist, there are many parking lots in this city, where some could be square as a public place in the urban context.

Cycling path

Cycling path from Mantova to Peschiera provide a physical activities with the vista to Mincio river which lead the rider to the urban context of Peschiera and then through Porta Brescia provide a narrow road to the historic core. A safe and attractive cycling path is a successful urban public place.

Urban park

Existence of parks in different part of the city provide a place for kids and their family to spend their time. The parks are comfortable, accessible public space where they can be multifunctional for kids and older people to spend their time together and socialize.

Museum and exhibition

Exhibition and museums provides a place not only for showing the artworks but also for socializing and exchanging their ideas between people. Fish museum which demonstrates the culture and history of peschiera and their career, has a courtyard which is perfectly a place for gathering and socializing.

walking path through the fortified walls

Social life is not only gathering in square. A public place can be define as

Play ground

Existence of playgrounds for different sports along the contemporary and new context between the residents and tourists accommodation buildings provide an opportunities for young people to do physical activities. Physical activities is one of the purposes of public urban spaces which can be in different function.

Walkside

Walking side along the Garda lake and in historic core where river Mincio and Garda lake connect

Providing a place where is accessible for everyone, visually attractive and safe. It provides a social environment where people can meet, speak and seat.

Public beach

By designing public beach along the lake garda, with different recreational facilities, provide a safe, accessible and attractive place for people, where connect the city with the natural element of the city. sing the advantage of Garda lake
