

# EXHIBITION OF EXHIBITIONS

The Reuse of Caserma XXIV Maggio

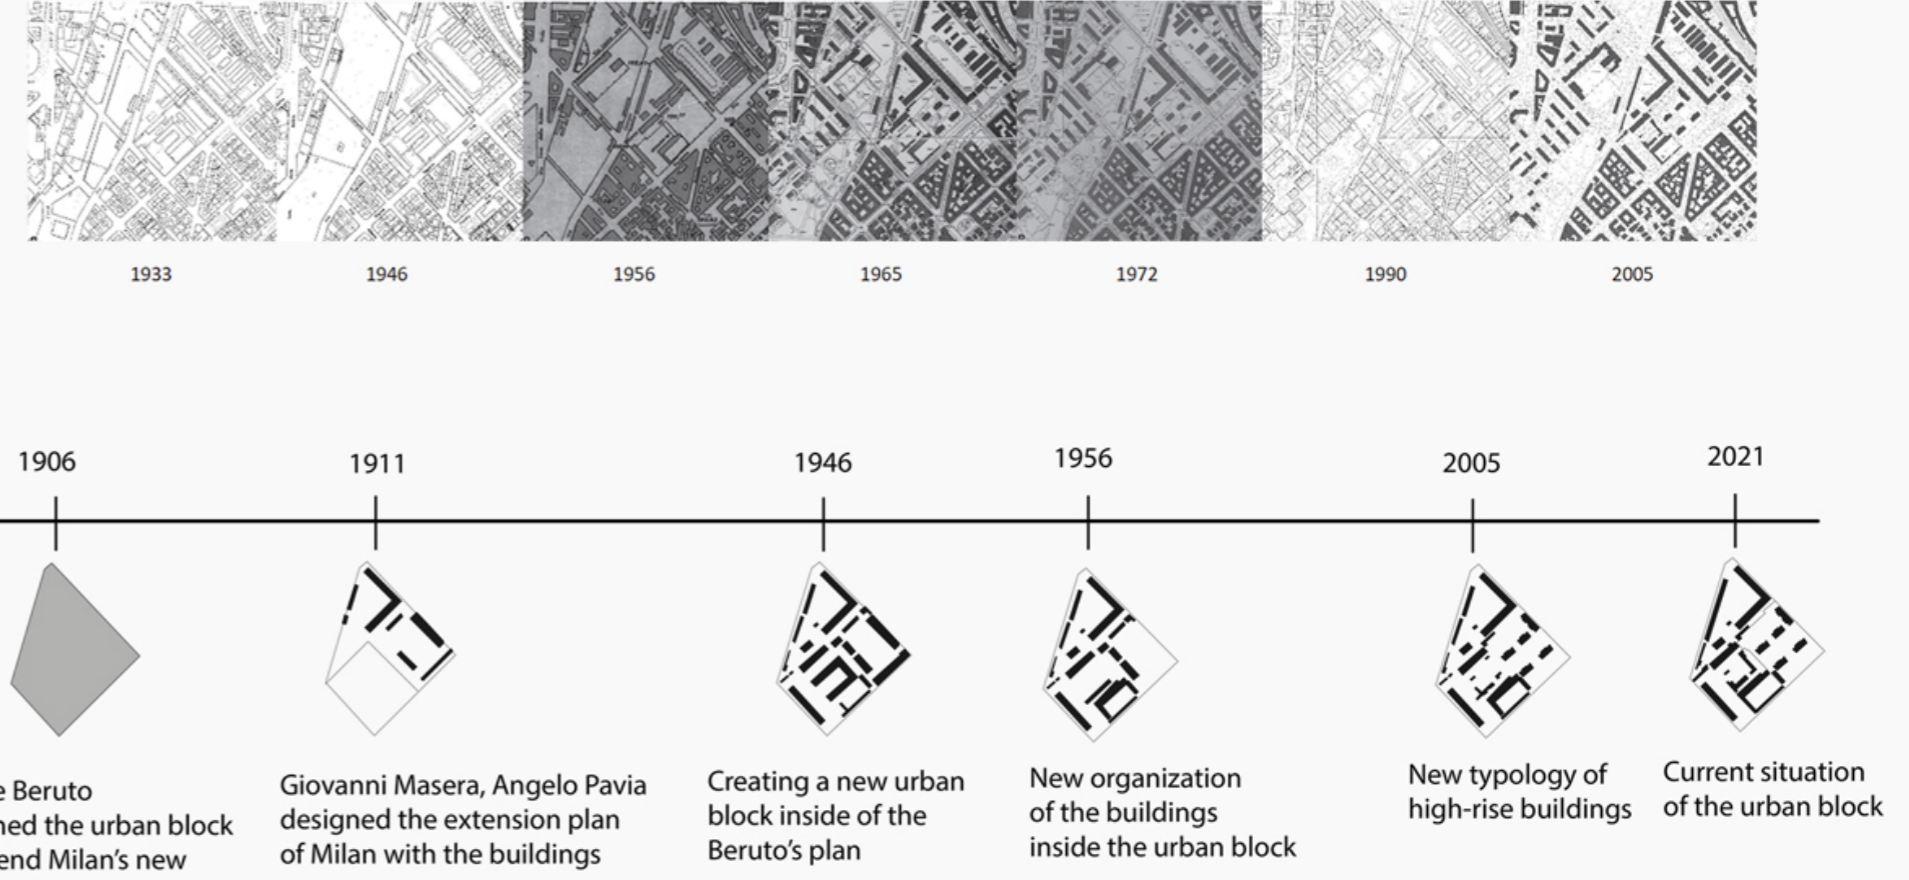

Caserma XIV Maggio the former military barrack building is currently used by hosting people in the military and mainly to keep the archives. The reuse of the building has been decided by the government only by the cultural activities such as temporary exhibitions due to the fact that the caserma is under the historical building criteria. Our thesis continues with creating the model exhibition that is the exhibition of exhibitions. It is dedicated to the Italian masters of design and architecture, the catalogue acts as a manifesto alongside a vast collection of display elements by the architects.

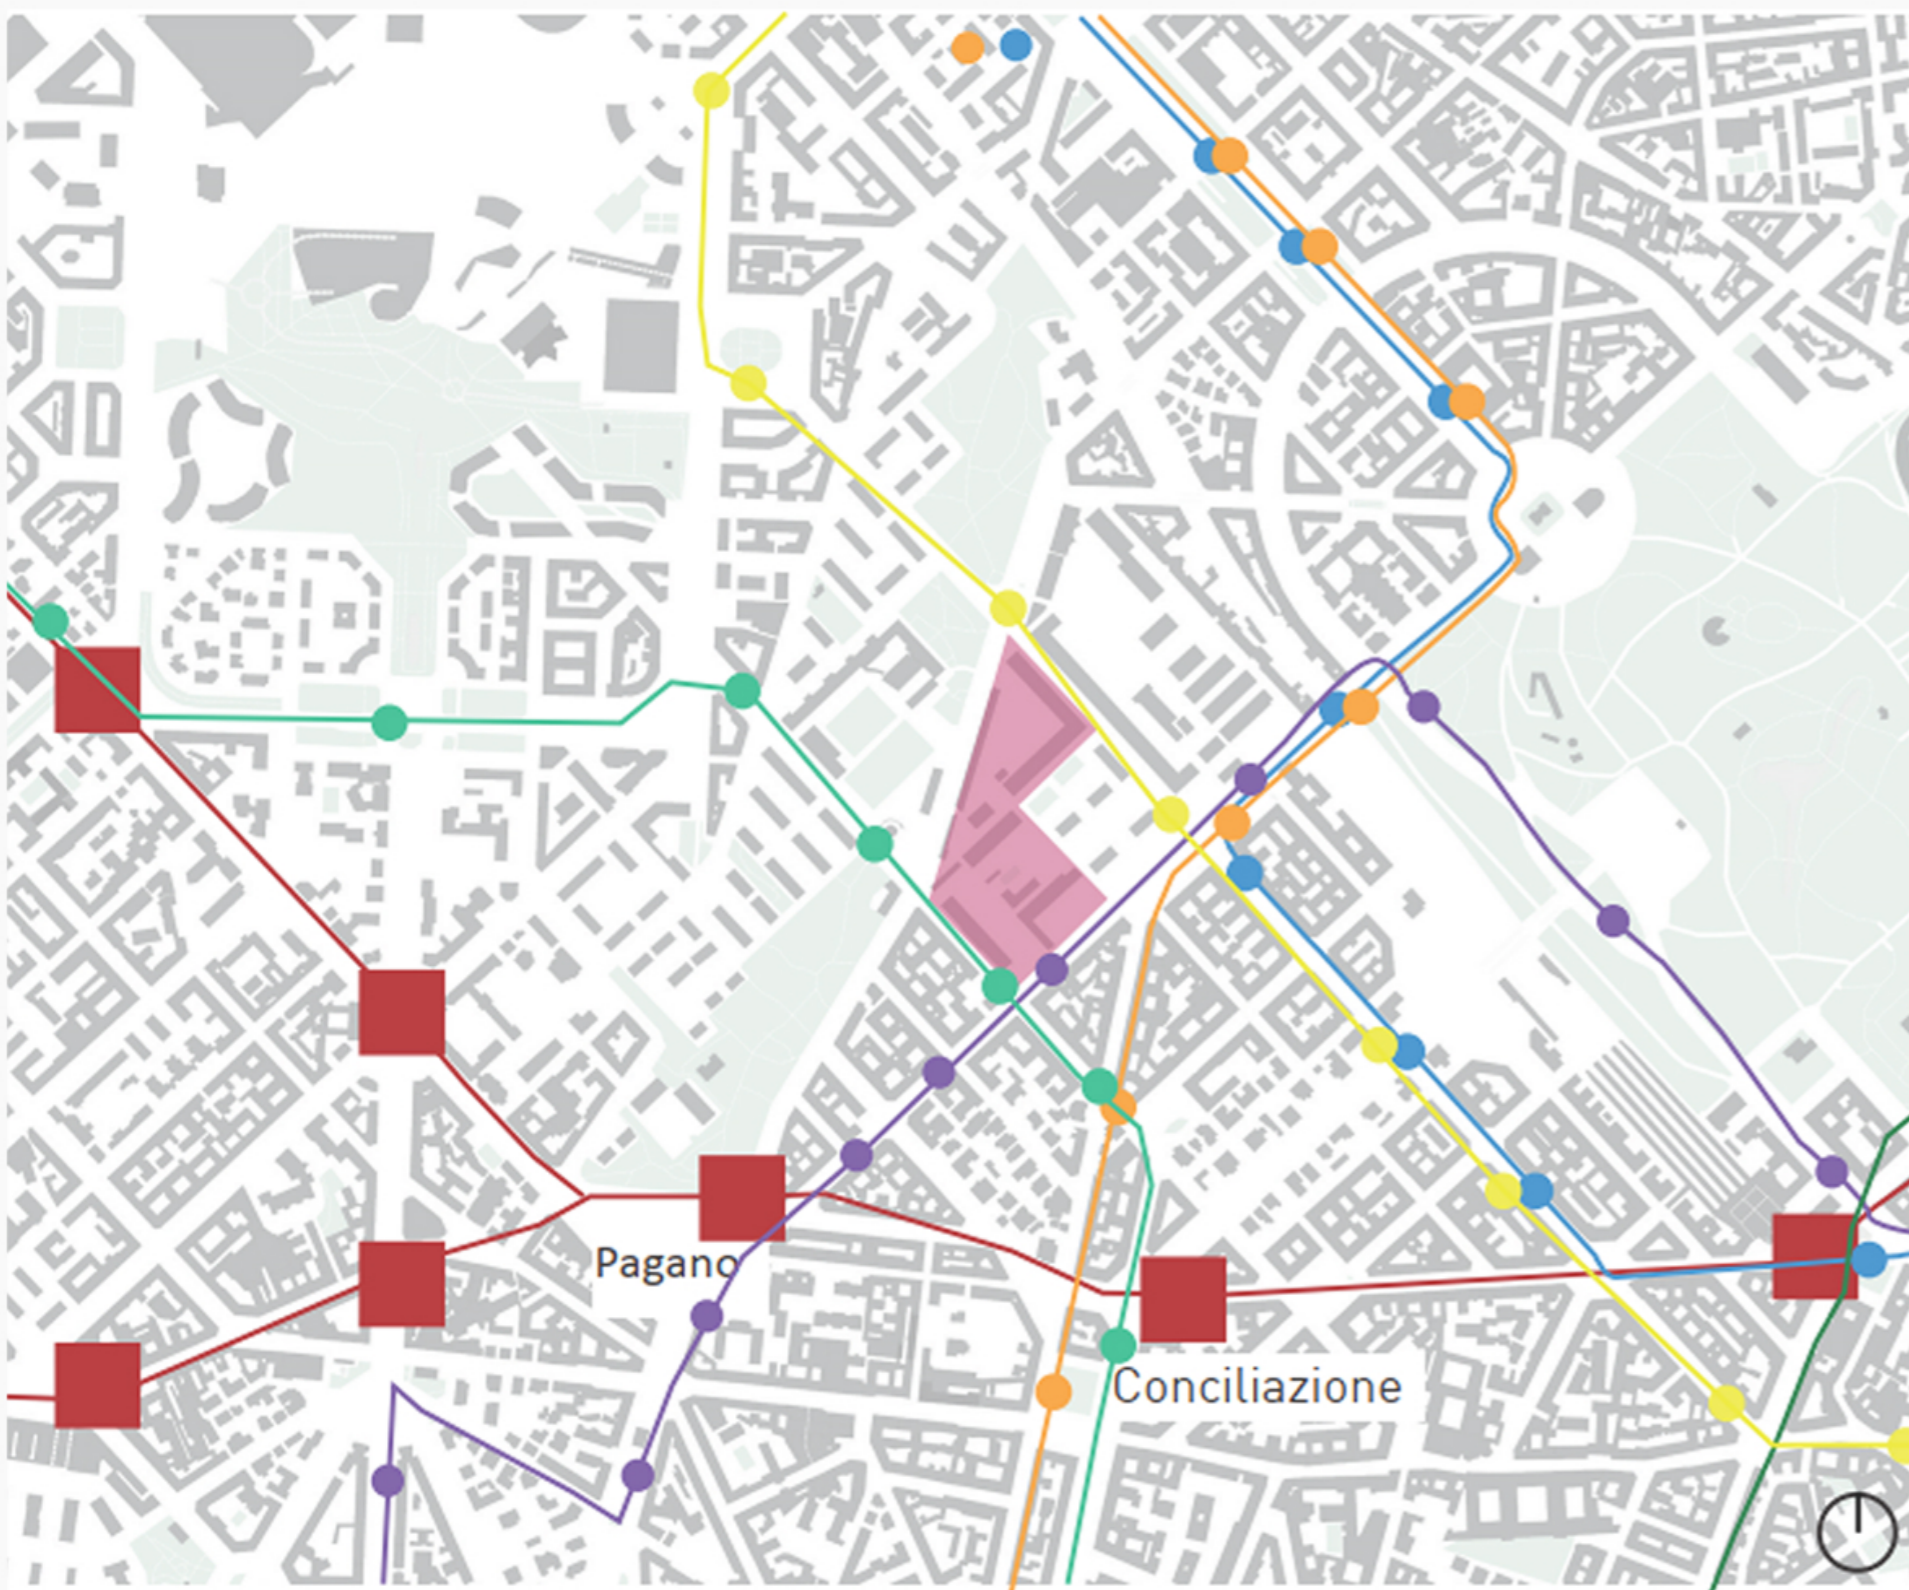

## Typology Analysis

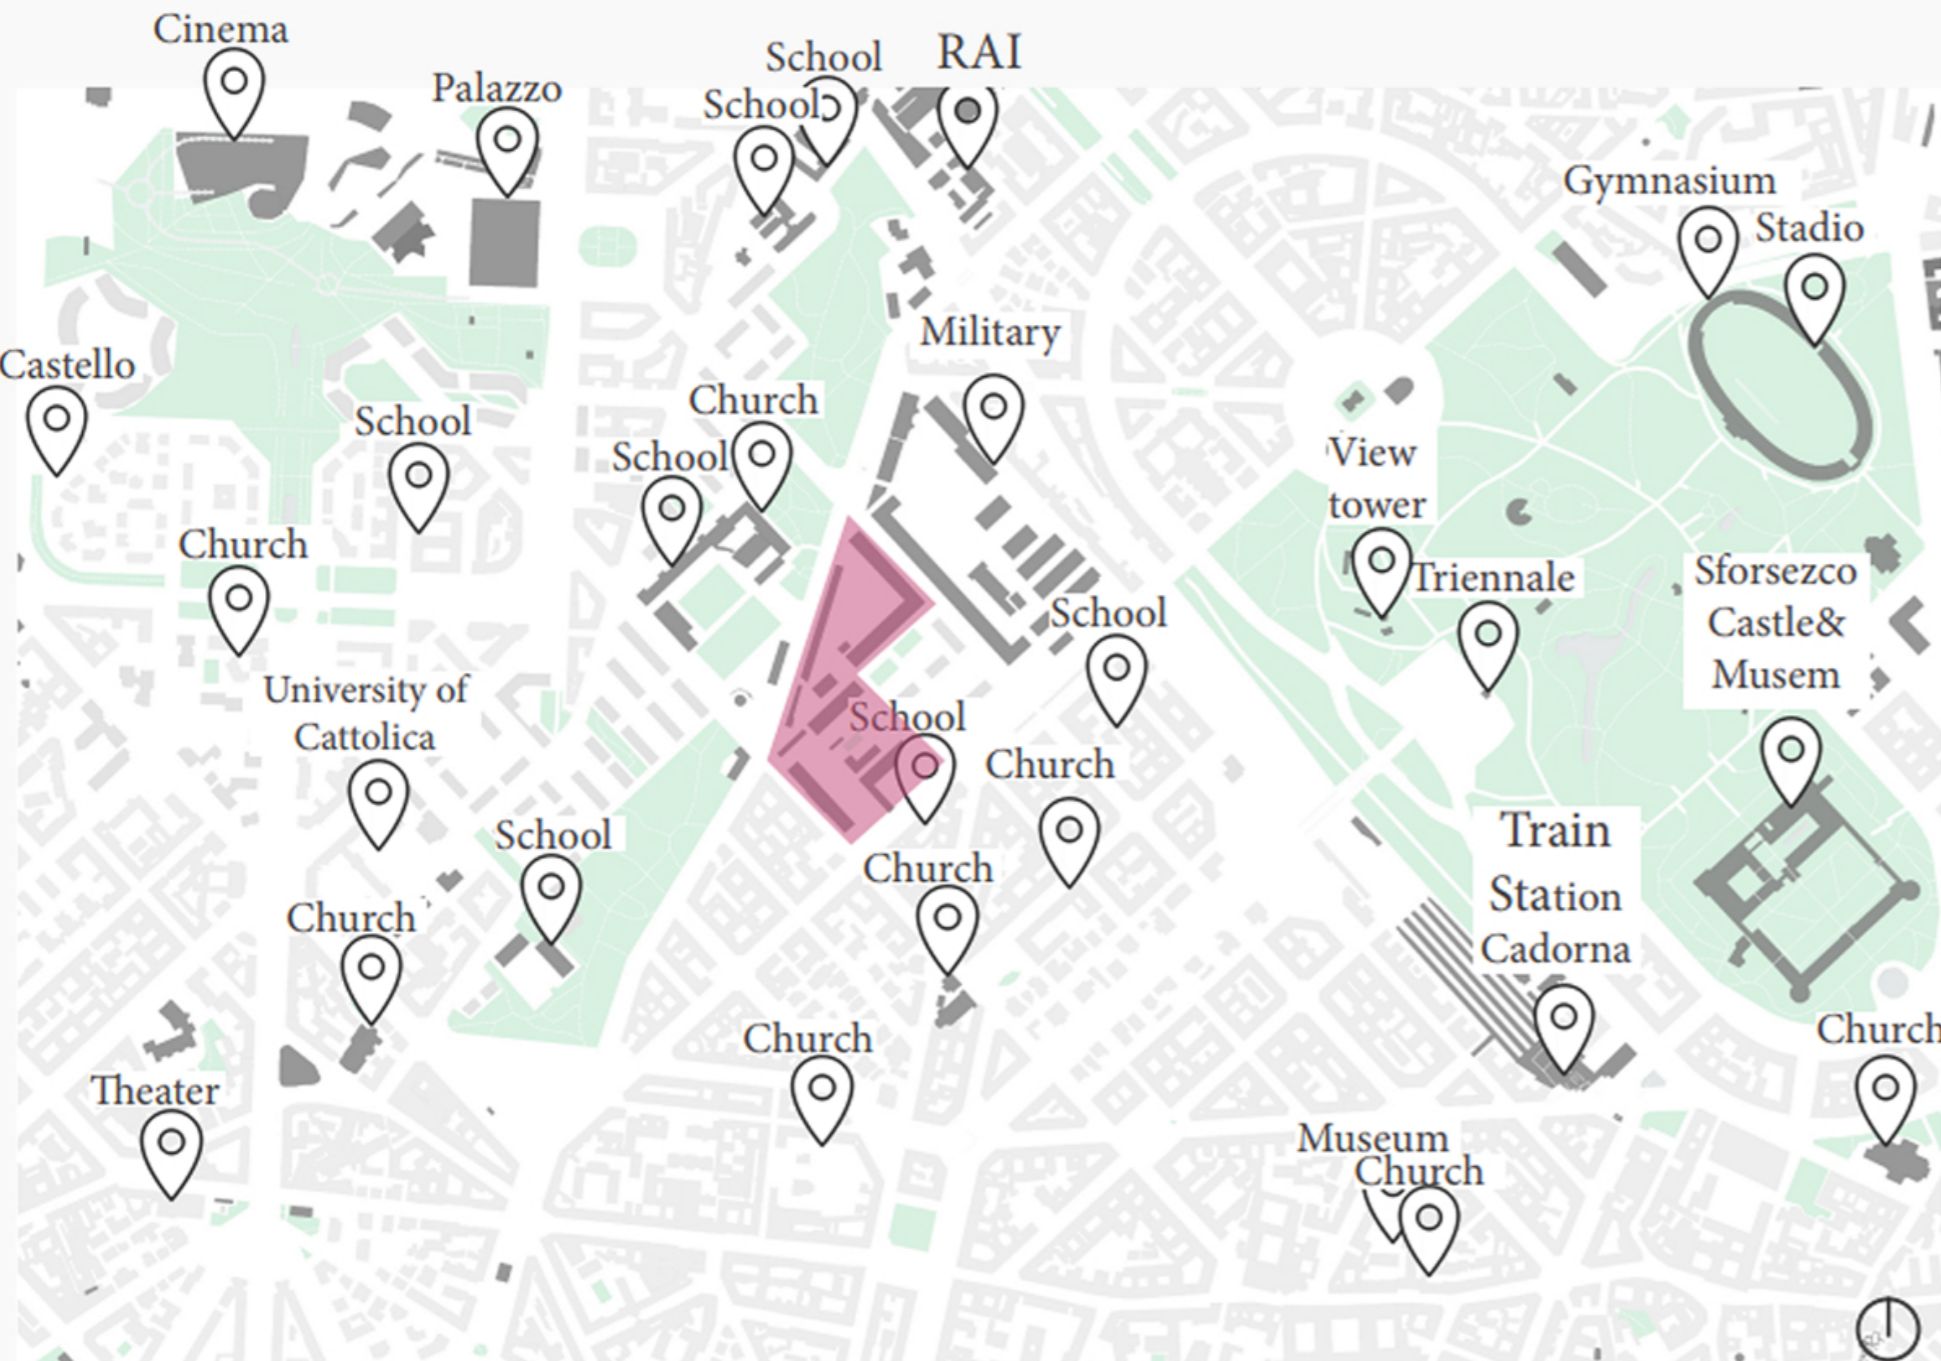

## Timeline

## Transportation and Accessibility

## Cultural & Education Centers in the Area

Outcomes: Existing culture centers in the area, mainly school and churches

## Boundaries Inside the Block Today

Our Urban Block

Residential Units:

- Traditional Type Blocks
