SAO PAULO DANCE CENTER

With the Implementation of the railroads that started in 1865 and the coffee trade, the city became an attractive option for coffee growers for living in. The pressure of immigration and the arrival of growers slaves to the capital led to the swelling population of the city.

SAO PAULO DANCE CENTER

Rainfall is abundant, amounting to an annual average of 1,454 millimeters. It is especially common in the warmer month's average of 219 millimeters, and decrease in winter, average of 47 millimeters.
