

**Building Composition:**

The buildings aligned with the existing city grid and connects with each other through a Platform which becomes a Plaza.

The programmatic configuration of each building corresponds to different Public functions and also Office Spaces.

The concept involves the building as a part of the plaza and creates a public flow continuously.

The buildings also creates a identity of the site and at the same time as a part of the Master-plan

**Diagrammatic Representation of Functions**

**Legend**

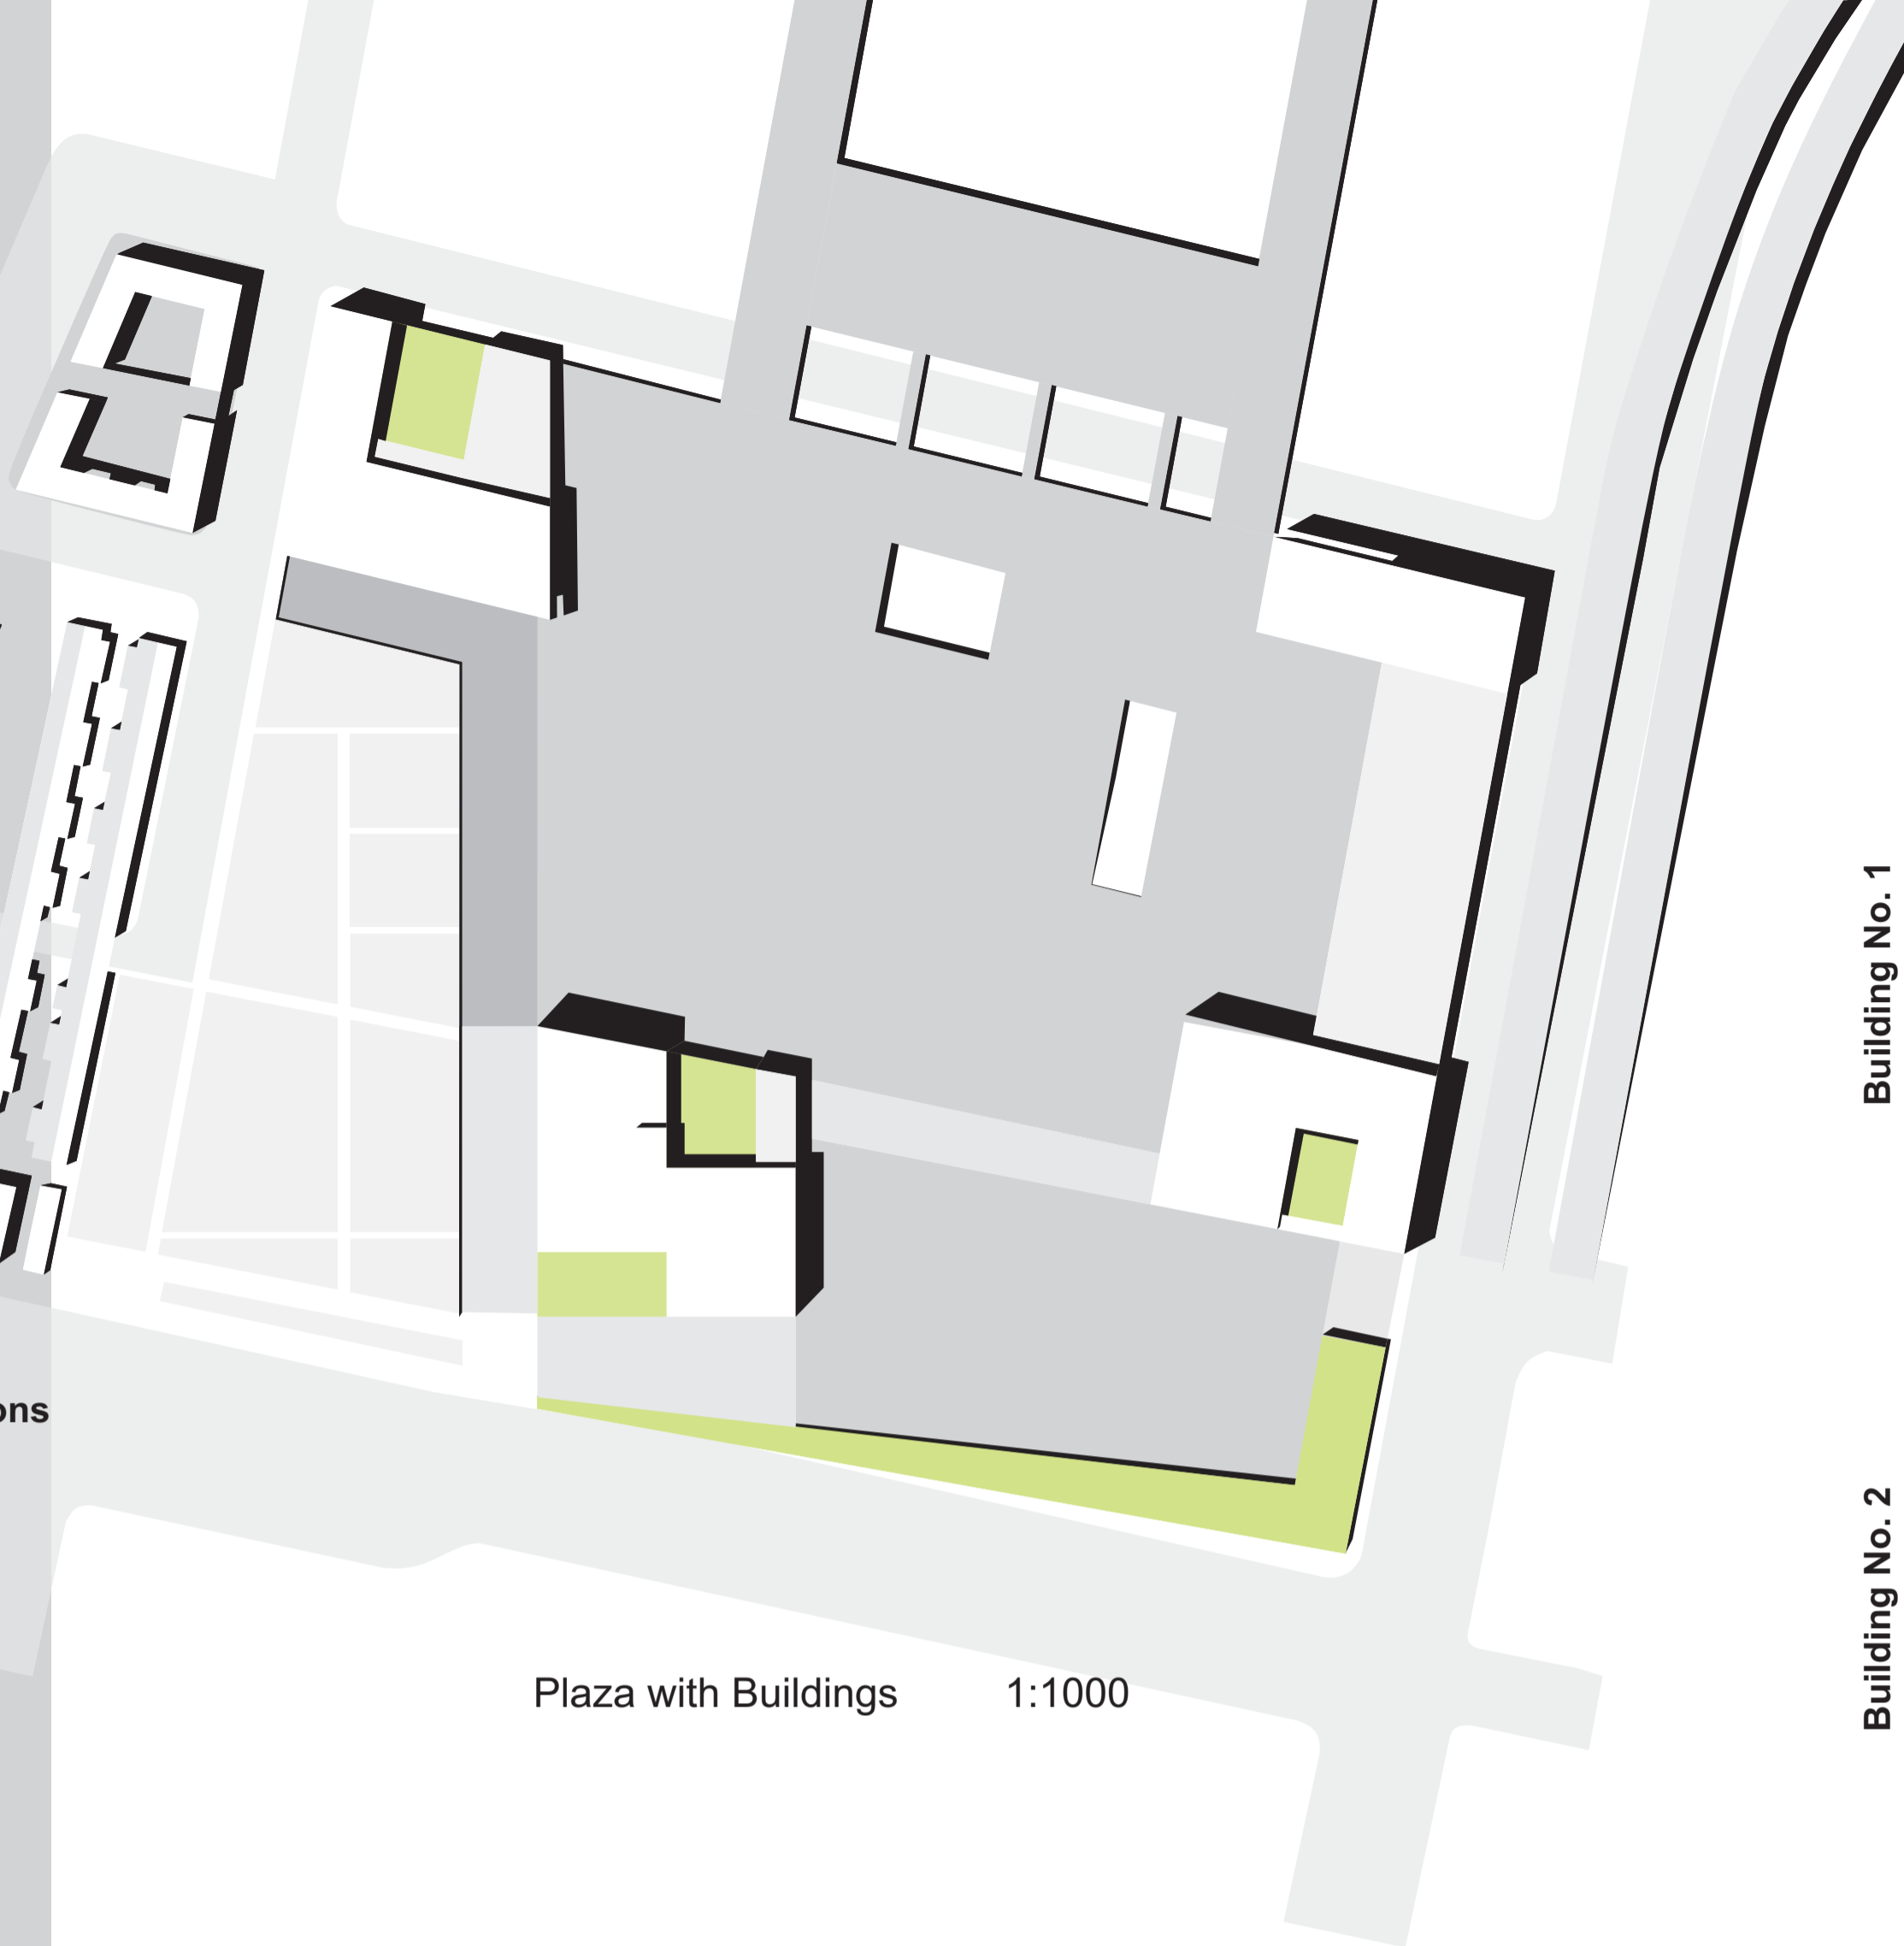

-  Commercial Shops
-  Basement Level (Parking)
-  Access Area (Lift/ Staircase)
