Housing  
Gardens // Housing fase 2°

Common  
student & housing

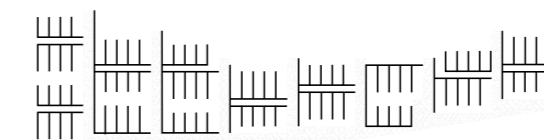

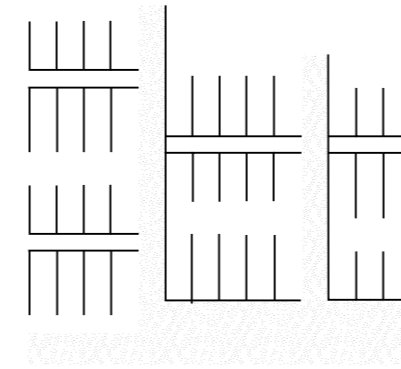

**DISTRIBUTION  
& LEVELS**

Reflecting the ground floor functions and to have different privacy degrees in correspondence to the private gardens there is a 1 meter gap. Each level is connected by ramps

The main distribution is a corridor 5m wide that at the fase 3° of construction could be covered by the independent typologies.

Each houses has a 1,5 mt filter before the entrance that could be, if oriented on the north side, a greenhouse.

**COMMON SPACE**

Even if the space is very flexible, there is a main rule organizing the space.
