

MILITARY MUSEUM

New Proposal

An exhibition space that can be mounted either temporarily or permanently in order to meet different needs. Dossier exhibitions, previews and exhibitions will have to harmonize with a permanent itinerary. Through evidences, testimonies, images, pictures and multimedia installations, this itinerary will have to tell the story of this place.

This will make visitors live an intense experience, acquire knowledge and feel unique emotions. It will also ease the surprise and learning itinerary, which is the basis on which the success of every museum lies. Large installations, a permanent visit itinerary together with flexible and reconfigurable spaces are just some of the main opportunities a facility can offer in order to fascinate as many tourists visiting the island as possible.
