

EXISTING BUILDINGS

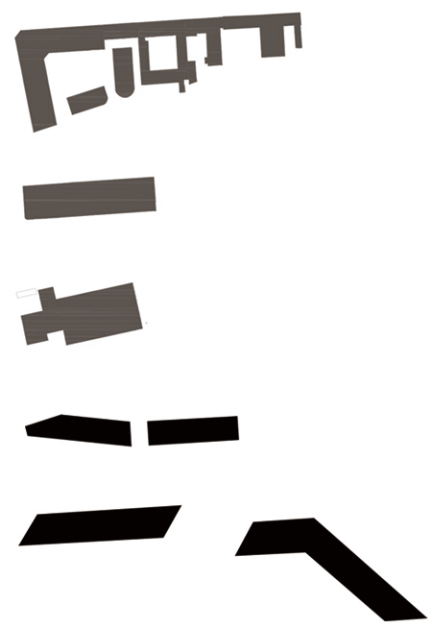

DEMOLISHED BUILDINGS

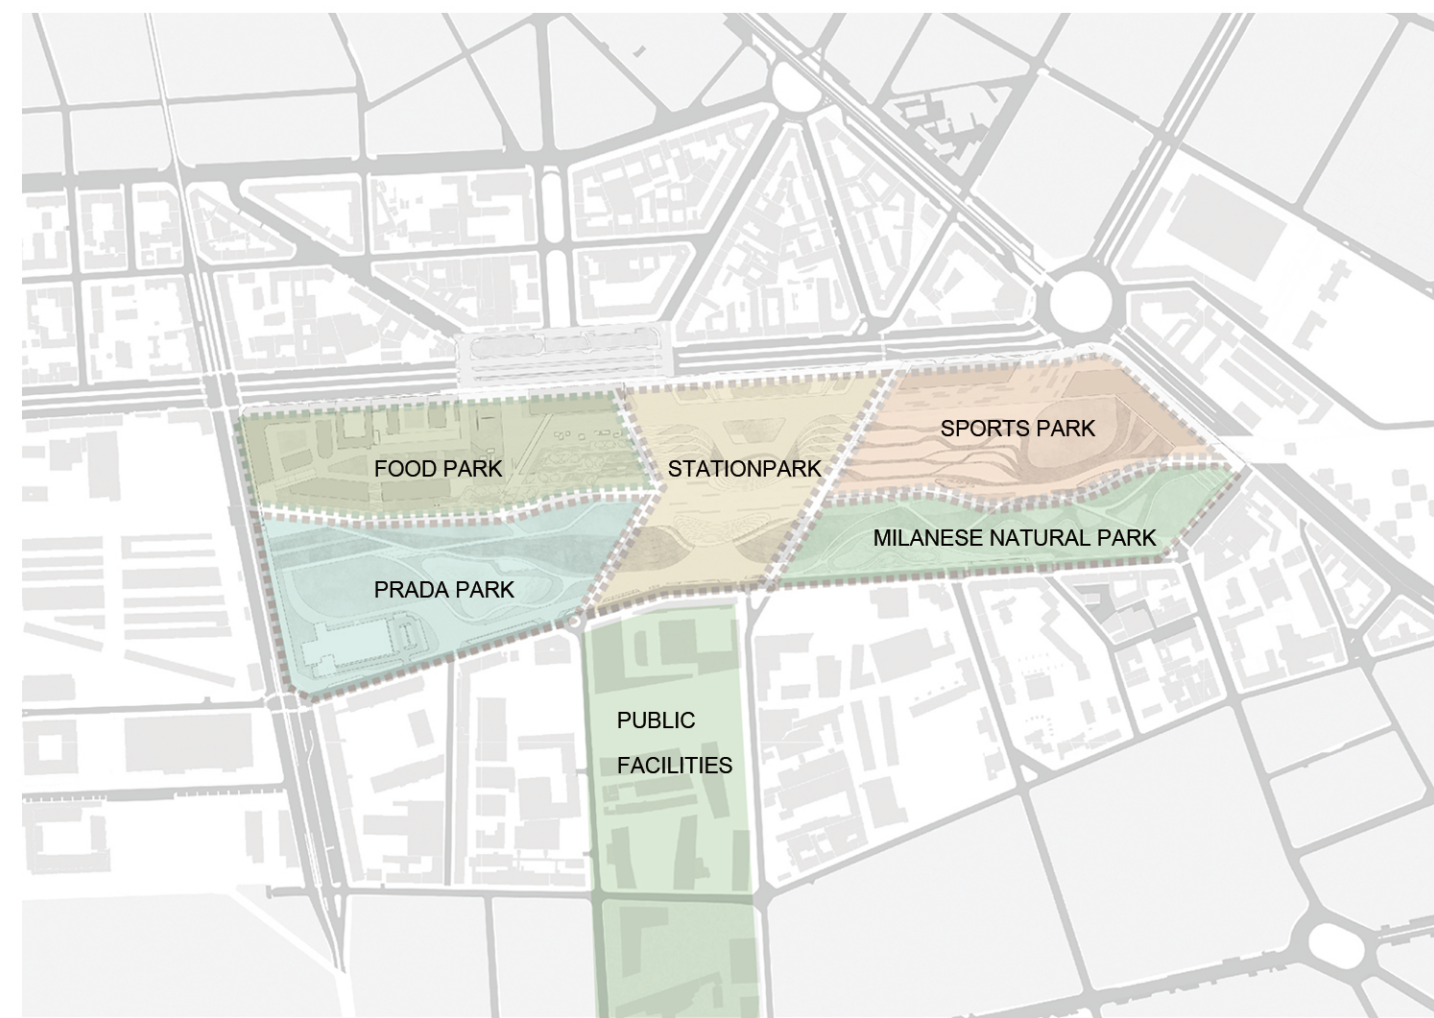

ADDED BUILDINGS

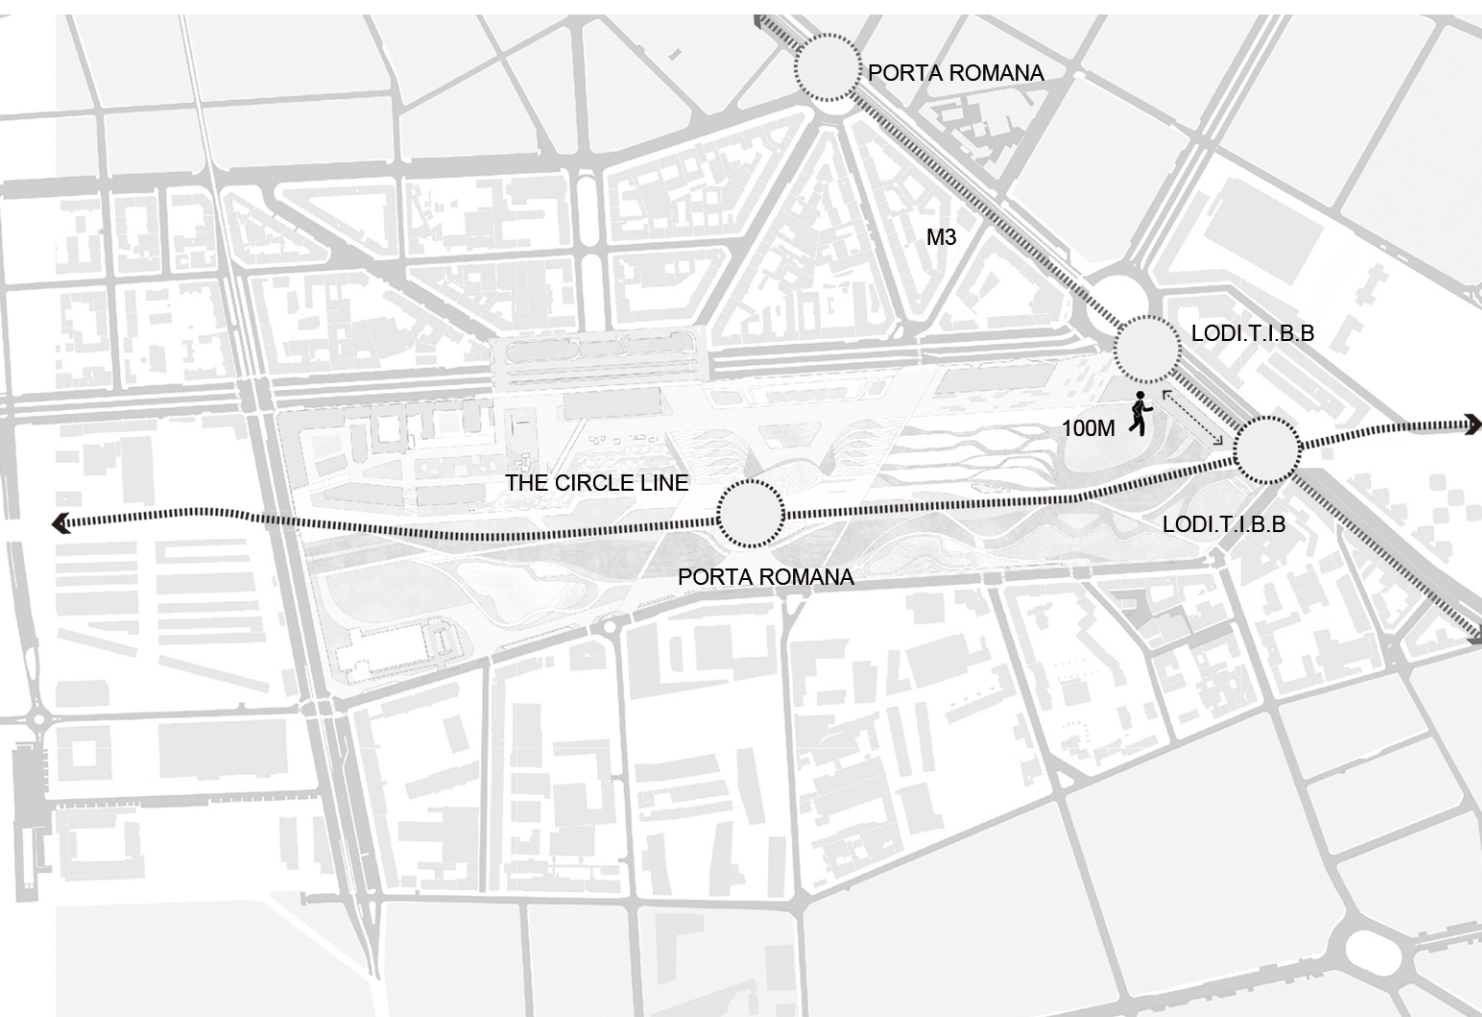

According to the quality and the location, we decided to keep part of the existing building with good quality and demolish the other part. The buildings which are abandoned we regenerate with new function. For example, the old abandoned train station, we convert it into railway museum, the abandoned factory on south corner we regenerate it as music loft and studio. The buildings on the northwest, which are still using and have good quality, we keep them as original function. We also add some new buildings according to the new function needs.

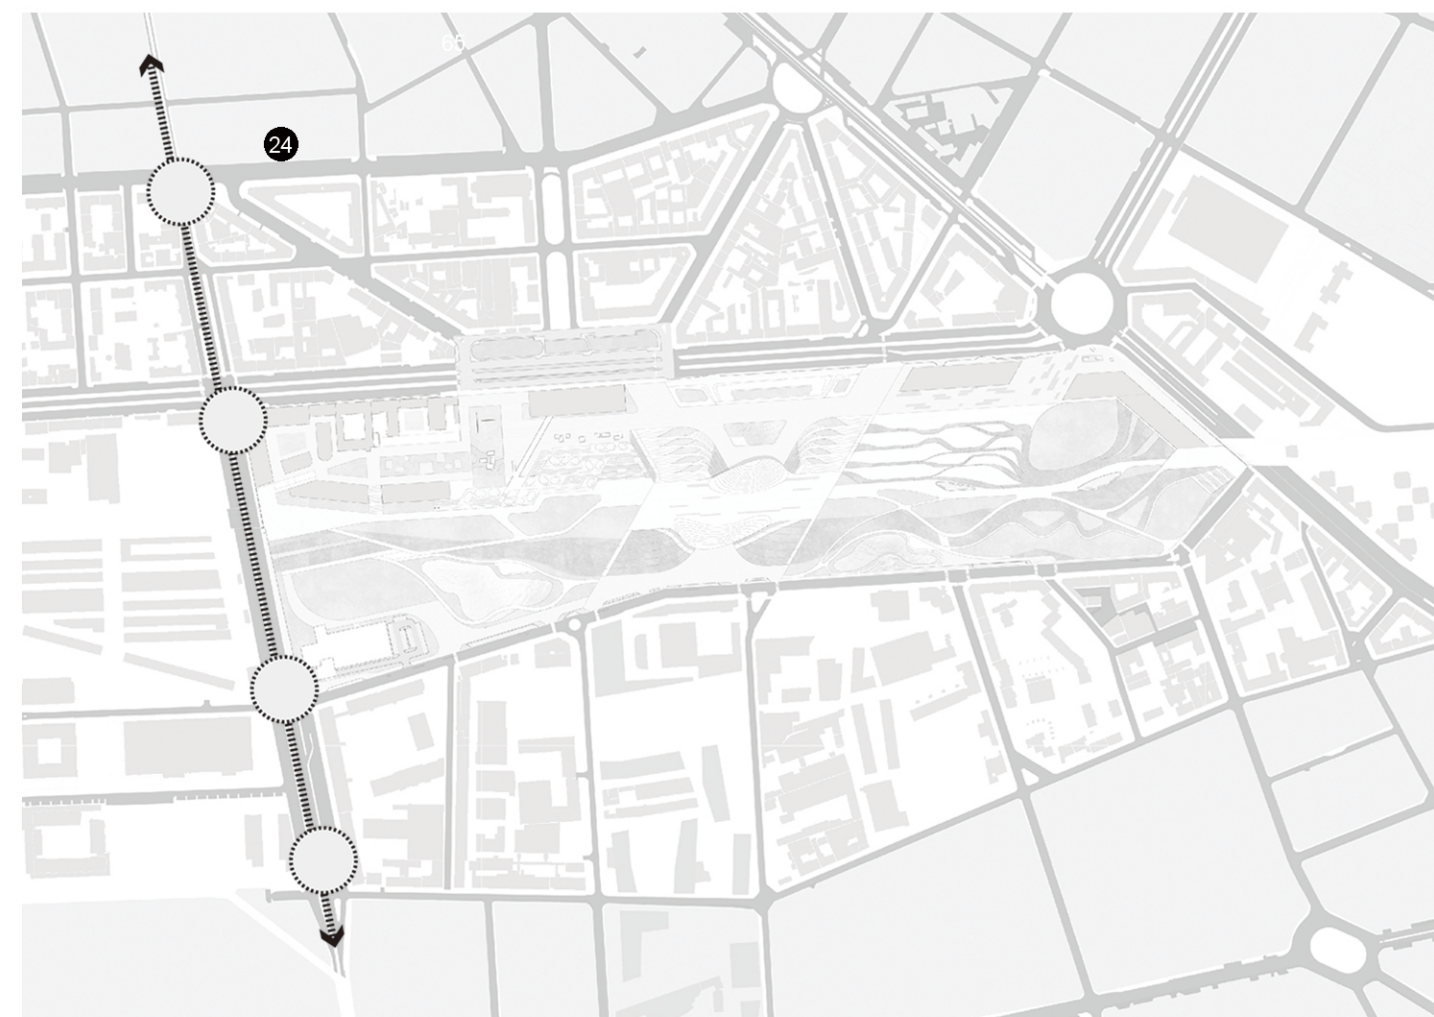

- Office, 30980mp
- Museum, 12040mp
- Music loft and studio, 7076mp
- student apartment, 100units, 6240mq
- Commercial & mixed-use, 22097mp
