

SITE LOCATION AND NETWORK RELATION

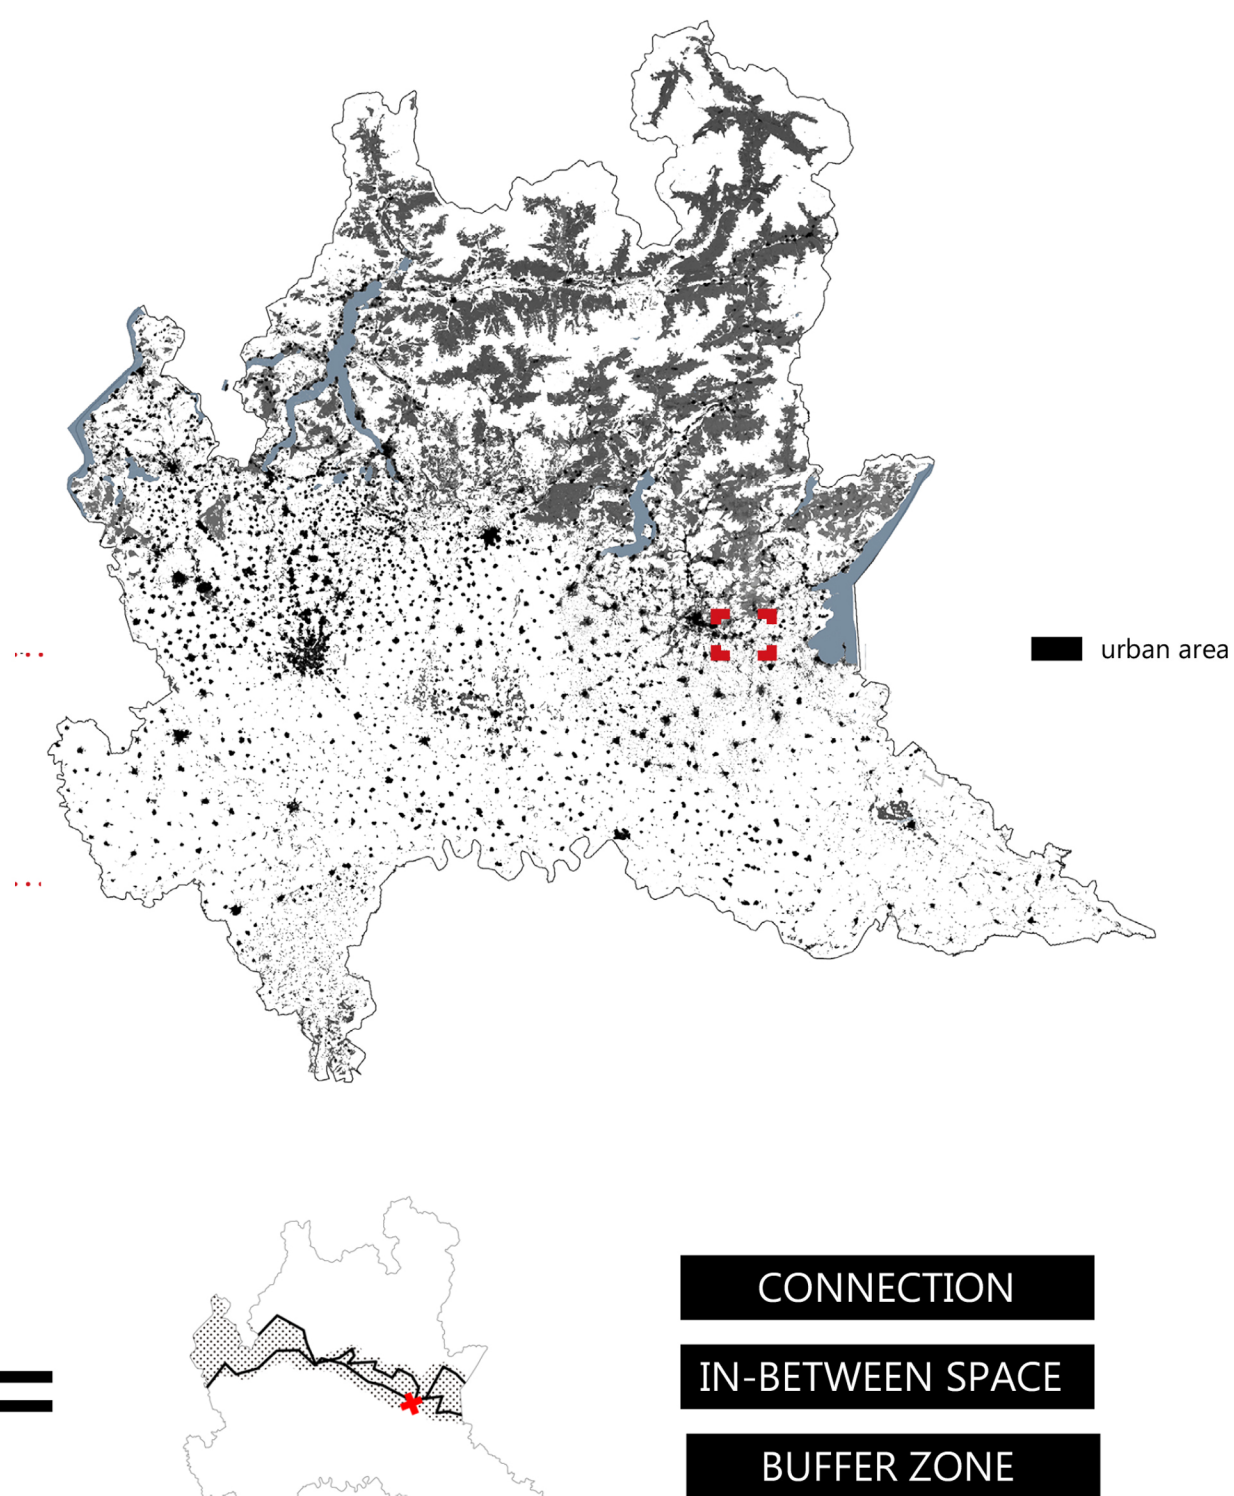

The site is located in the region of Lombardy, in cities at the east of Brescia, connecting Rezzato, Mazzano and Nuvolento. The area where the venue is located is known for its mining of marble, blending a variety of natural and cultural attractions which can be the rich tourism resources.

There are already abandoned quarries and quarries still in use on this area. The artificial production mode and the natural landscape create subtle fusion and resistance in the same place.
