

Green and blue systems

ES: ENVIRONMENTAL STRATEGIES

ES1 Restoration of the tree rows, to constitute new ecologic corridors that run through the rural landscape.

ES2 Implementation of the low mobility network, both for the consolidated city and to connect to the already existing cycling paths near the river.

WS: WATER-RELATED STRATEGIES:

WS1_1_Canals a series of cuts to connect the open areas of the park to the crops.

WS1_2_Piers New ways to interact with water and also stops for touristic ferries.

WS1_3_Biolake To spend more time near the river, to claim the tradition of the Po as a great beach and to experience nature
